WORK EXPERIENCE

Full Stack Developer

Union Technologies Inc.

📅 December 2022 – November 2025

📍 Toronto, ON

- Built a React/TypeScript CRM with lead & client management; Node backend, Tailwind UI.
- Produced 4,000+ qualified leads by engineering a Node/TypeScript pipeline for public records and integrating it with the React CRM.
- Shipped Next.js features from design to prod with React/TypeScript, TanStack Query, Tailwind; deployed on Vercel/Cloudflare via GitHub Actions.
- Built vote-tracking software for union elections with real-time tallies and admin dashboards (React & Node).
- Managed launches for 200+ domains: DNS and SSL setup, redirects, and go-live without downtime.

JavaScript Developer Intern

OPHEA

📅 January 2021 – November 2022

📍 Toronto, ON

- Built React/TypeScript tools and a Node.js script to automate updates for 900+ Ontario schools.
- Automated a data-entry workflow, taking updates from days to same-day.
- Improved page load times and accessibility site-wide.

PROJECTS

[Down Syndrome Foundation — Help321](#) ↗

Web Developer — React & WordPress

- Partnered with a non-profit to ship a 20+ page site from UX prototype to production.
- Built a resource finder for Canada with custom filters, API integrations, and query logic.
- Implemented donation flows and admin-friendly content updates; accessibility-first.

SUMMARY

React/Next.js specialist.
Converts prototypes into scalable, production UI with speed and care.

EDUCATION

BDes Digital Futures

OCAD University
